This chart shows the distances and times required to travel between locations, with no traffic restrictions or extraordinary weather conditions, and when traveling on expressways and national roads in a standard driving mode under summer road conditions. If traffic restrictions are imposed or under winter road conditions, the actual distance and time will be different.

Major road signs in Japan

Road signs represent the law and breaking the law leads to accidents. Traffic violations are subject to punishment. Comply with the rules and enjoy safe and secure driving.

Stop before the stop line and check whether or not it is

safe to proceed.

No entry of vehicles Vehicles are not allowed to enter (This is the exit of a one-way passage.)

lirection. Do not go in any direction

No parking

Do not park here. (Illegal parking obstructs the passage of emergency vehicles. □ Do not park here.)

No parking or

Maximum speed Do not exceed the speed indicated on the speed sign. (The example is 50 km/h) %All speed signs indicate kilometers per hour

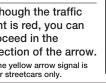

No passage of vehicles Vehicles are not allowed to pass through here.

Ignoring traffic lights can result in serious accidents. Even if you do not see people or vehicles around you Japanese traffic lights you must obey the signals.

Even at green lights, check the safety of your surroundings.

Arrow signals Although the traffic light is red, you can proceed in the direction of the arrow *The yellow arrow signal is

Stop: Check right and left before proceeding.

Blinking red lights

Blinking yellow lights

There are single-type flashing signals in the suburbs. They function the same as the three-colored signals.
